Financial Services

11-50 Employees

Kuwait

CLIENT RATING

5.0
Overall Score

Quality: 5.0

Schedule: 4.5

Cost: 4.5

Would Refer: 4.5

The Approach

How did you select designs.codes and what were the deciding factors?

We got a referral from our other sister concern company where they already doing the dev project. Design codes then visited our offices to discuss the commencement of the work.

Describe the scope of work in detail, including the project steps, key deliverables, and technologies used.

They were tasked to develop the Mobile Application on both platforms of IOS and Android as per the BRS documents.

How many people from the vendor's team worked with you, and what were their positions?

one designer Mobile screens one Android developer one iOS developer one Tech lead

The Outcome

Can you share any measurable outcomes of the project or general feedback about the deliverables?

We are particularly impressed with the service and cost and most importantly the final result.

Describe their project management style, including communication tools and timelines.

Weekly & on-demand telephonic / Skype calls were made to discuss Mobile Application development & tracking the progress

What did you find most impressive or unique about this company?

They are also quick at effecting changes or additions.

Are there any areas for improvement or something they could have done differently?

To be clearer on what was needed to get a better solution... overall this was good.
