The Approach

How did you select this vendor and what were the deciding factors?

We posted an advertisement on Guru and received a response. Design codes then visited our offices to discuss the commencement of the work.

Describe the scope of work in detail, including the project steps, key deliverables, and technologies used.

They were tasked to design and develop the website using WordPress as a CMS.

The Outcome

Can you share any measurable outcomes of the project or general feedback about the deliverables?

We are particularly impressed with the speed of service and cost and most importantly the final result, which is a sleek and modern website. Design codes also offer excellent website maintenance and aftercare service.

Describe their project management style, including communication tools and timeliness.

Regular Skype calls were made to discuss website development.

What did you find most impressive or unique about this company?

They are also quick at effecting changes or additions.

Are there any areas for improvement or something they could have done differently?

Tight timescales to provide information to them which were difficult to meet whilst running a busy office.
